

Greetings

My legal fiction is ANDRE MARTIN SLADE. However, I am known as Enki Yahshuah; Enki, My title meaning Master or Lord of Earth. You may address Me by either. In various nations I am known by different names. I am a natural scientist, engineer, nature lover and an author at heart. Before I go any further, I categorically state, for the record, that We do not represent any religion whatsoever; in fact, it is rather the contrary: We oppose it. We were appointed by My Father Yahweh as His two witnesses. I also have to make it very clear to everyone present here that I stand on trial as Second Respondent. In the eyes of God, men and women are equal, but women have the greatest responsibility on Earth, which is child birth.

The First Respondent represented by Katarina Krizani, the woman My Father sent Me as witness and Bride is the co-owner of the house, She stands accused as such. She has taken full responsibility for enforcing the truth We both knew to be true and correct according to the books that drive society, prophecy and all doctrine. She did so, to expose Us to the world as She is a truth seeker to the letter and wants the world to get a message We are here to deliver. Our reconciliation was no coincidence. The first email message like the one in question went out on her demand in Dec 2015 already.

I therefore request that you direct your interrogation at both of us equally. Failing to do so is unfair discrimination between a man and a woman. We speak as One, yet Katarina remains superior wrt detail. Besides, on the day of Her arrest She had already signed Her crimen injuria case statement opened by a police Colonel on Her own persistence knowing fully well that She would be arrested. She stands as international firsthand witness of the iniquity and double standards of this present Satanic system, both physically and intellectually. She insists on Her share of this saga and it is unfair to deprive Her.

As for me; I am a passionate scuba diver and have dedicated my life primarily to underwater photography, humanity and engineering. I came to Sodwana for the first time in 1986 and fell in love with this area. I am both an instructor and

a skipper. I moved my prototyping and manufacturing company, Inner Space Developments, to Sodwana Bay in 2007 with the intent of carrying on with the manufacturing of a newly developed product I had been preparing for export. This was possible for me as I was doing mostly inhouse manufacturing.

I moved to Sodwana Bay also with the intent of getting out of the city and building an off-grid self sufficient house big enough for the family. I ended up partnerless 2 years later with 4 permanent employees. Since I have been here I have heard many complaints from inhabitants along the coast. Concessionaires finally giving up their businesses as a result of high beach taxes, lower turnover and high running costs. This due to a steady decline of divers rather being drawn to Mozambique, contrary to the applicants' reports. I have listened to the people speaking and while trying to find witnesses on short notice, I realised their fears. I have personally witnessed the steady reduction of tourism in our area. I have also interviewed many visitors and heard their grievances.

Exposed corruption in government is a display of what drives globalist corporations. South Africa has the highest crime rate and second highest rape rate in the world; this is also a problem in India. The xenophobia speaks of populace imbalance due to overpopulation of specific kinds and no where to go. The mismanagement at top level is busy taking its toll and it shows very clearly in economic statistics and the downgrading of Our once flourishing country, the former so called "Democratic Republic of South Africa", to below junk status.

Inspired by the iniquity I was witnessing both locally and internationally and my interest in Astrophysics and Astronomy, I became heavily involved in researching and writing about humanity in 2009. I felt so much compassion towards the inhabitants of our country that I wanted to know for myself where all the problems stemmed from. I slowly closed my company and started researching into many fields. With Humanity living double standards, the root of all confusion and instability, getting the truth to them has taken drastic measures as the situation has become so dire, both locally and abroad. Ethnocentrism, xenophobia, nationalism, "racism" and eventually war are the inevitable flip sides of ethnic nepotism which refers to genetic preference.

Divine ends are achieved by diverse means. Declaring our right of association was the first physical step we took in restoring Yahweh's place in society. We therefore also discriminate against the LGBT society, mixed breeds and multi racial couples, as published on Our blog and referred to during media contact as these are forbidden from Earth by the Creator. Unfair discrimination is abound in the world; it is disguised as Affirmative action and BEE.

Since the incident of June 22, 2016 after the infamous e-mail was sent, We have been, ridiculed, attacked, shunned and rejected by the world. Since that day, Our constitutional rights have constantly been violated. Katarina was illegally detained for 33 weeks in contravention of even your own immigration detention laws. Applications for help to the SAHRC were also invain. During Her detention in a holding cell in Emanguzi prison She was assaulted, verbally abused, stolen from and harassed. We have witnessed corruption and blatant prejudice within the police force and the legal system. I remind you that We admit to transgressing one rule of *the Bill of Rights*, while continuous violations against Our rights remain unnoticed or regarded. What kind of biased justice is that?

The Equality act in itself is unfairly discriminatory as it deprives Us the right of freedom of assosiation according to Our Biblical beliefs and traditions. It also effects blacks adversely. Equality is Communism and Mandela was a communist, he put it there on demand of the global "elite" that drive society. As Natural beings and international authors, Our characters were publically defamed by a public figure representing the Applicants' organisation on mainstream media. Our intentions are and were pure, unbiased and aimed at resolving a long-standing, seemingly unresolvable issue. We do so without prejudice in honour of My Father Yahweh and the inhabitants of Earth. We are on a mission is to expose the Catholic corporate system as the wolf in sheep's clothing bescrived in The Bible as the Harlot and Sea Beast and to rid South Africa and eventually the world of Colonial iniquity evident everywhere. We only have one aim: to restore humanity's respect for God's law and His chosen people, My family, Ha Yahudim and Yahsharal .

To end off with, Man created from earthly substance alone could not know things not of Earth. The nature of man on Earth was formed after the nature of things in Heaven. It is natural law for all animals to be "racist" which serves as a built-in protection mechanism aiding in the survival of species/kinds by keeping them pure. We Israelites are no different. This "racism" or kindism, as we describe it in Our book, (also referred to in science as Ethnic Nepotism, genetic similarity theory or kin-selection) is also displayed in government with favouritism resulting in state capture. The word anti-racist is a codeword for anti white. When a nation embraces key globalist agendas of social constructs such as multiracialism, multiculturalism or communism, it ceases to be a nation anyway; there will be no progress nor will it flourish; this is the Paris Agreement or Agenda 21.

Radical transformation can only happen through social evaluation and truth, not through revolution and agenda. Proof that we are not all the same is evident in world events at present. South Africa cannot go on within the feudal system developed by Whites for Whites. Wasting energy on trying to adapt an outdated, ill-conceived system based on lies, instead of starting fresh with everything taken into account is a grave mistake. The truth is truly a bitter pill to swallow, We know that best of all. Katarina and I have already crossed that bridge so we cannot hold back on pointing out the lies humanity have had to face and deal with. The eye that sees earthly things is deceitful, yet the eye that sees spiritual things is true.

Our destiny is in the hands of My Father Yahweh, His will be done; may Truth prevail for only the truth is eternal and will set you free.
